Re: Berthoud Fire Protection District Fire Station #2, Berthoud CO

Dear Marc;

We would like to thank you for your performance in the construction of Fire Station #2 for the Berthoud Fire Protection District. Your performance on this competitively low bid project was a considerable help to the Owner and to us in the administration of the Project.

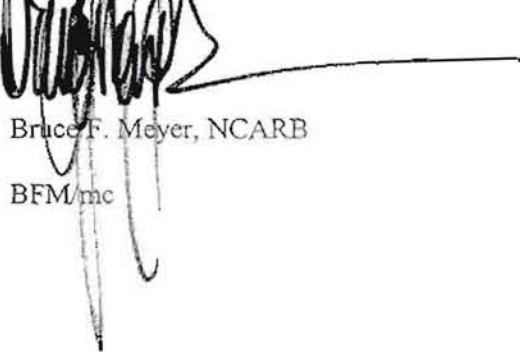

We appreciate the work that Brad Bakel and Tony Vienna did in keeping Change Orders to a minimum and assisting the Fire Protection District on additional requests for items that increased the value and enhancement of the Project. The Fire Protection District was able to add additional items to the Project at reasonable cost.

Although the Project schedule was very aggressive your timely completion of the Project within budget was appreciated.

Once again we would like to thank you for your work on this successful Project.

Sincerely

Landmark Engineering, Ltd.

Bruce F. Meyer, NCARB
