Construction Concepts, Inc.
14125 Mead Street
Longmont, Co. 80504
(970) 535-0600

To Whom It May Concern:

Construction Concepts has worked on the Auraria campus for over two years on a variety of remodel projects, including tenant finish, capital construction, and controlled maintenance. Construction Concepts has worked as both a general contractor and as support service on our tenant finish projects. As a support group for our in house staff, they have been extremely easy to work with and provided both prompt and professional service. The remodel projects on which they operated as the general contractor were also handled very professionally, from onsite customer service, coordination of sub-contractors, overall workmanship, schedule coordination, and final punch list. Above all Construction Concepts has shown, on many occasions the flexibility to work within our campus schedule of classes, which run from 7:00 a.m. to 10:00 p.m., and have continually performed at a high level of competence on all of the projects that have been awarded to them.

I would highly recommend Construction Concepts for any construction work you or your company may have. From the stand point of Auraria Higher Education Center, we will continue to use the services of Construction Concepts for what I hope will be many years.

Sincerely,

Doug McLean
Construction Manager
Auraria Higher Education Center
